Pre-Pay for your Juice and Save Big!!
The more you buy, the more you save!

How's it Work?

1. Have a look at the pricing on the next frame - you'll notice you get more savings for the more fresh juice you prepay for. It's one of our ways of rewarding you for committing to your health and well-being by consuming fresh pressed juice regularly! **If you buy a regular juice card but want a premium one from time to time then you would simply need to pay the \$1.75 difference** - so choose your juice type wisely!

2. Choose your card (premium vs. regular blends, 16oz vs 1 Litre), then we'll cash you out and hand you a nifty prepaid card that you only need to present to us to get your juice. Your juice card should be handled and stored in your wallet like cash since we can't replace it if you lose it, so please keep it safe!
